

## Community update and feedback sought

COBWA will be holding a zoom session to update members on our activities and to collect feedback on a recent opportunity to develop a Research, Development, Extension and Adoption (RDE&A) plan through the Grower Group Alliance.

The plan will provide a pathway forward to source funding for COBWA. We are seeking feedback on factors that limit organic production, and research topics that may help address those limits to improve our organic grower's productivity. COBWA wants to ensure that our RDE&A plan will reflect what our members need in terms of research in the organic industry.

### Agenda:

- Member / Organic community update and forum
  - COBWA's new website and bioamendment project.
  - Small landholder engagement strategy [planned agronomy day in May]
- COBWA RDE&A extension and adoption plans – what is limiting your production?
- Meet and greet others passionate about organic principles/ build the community/ celebrate the organic way.

**When:** Tuesday 3rd of May 2022

**Where:** Online zoom event

**Time:** 7pm to 8pm
